

ASHWIN SHARMA

+91-9412424002 | ashwin.works1609@gmail.com

 [ashwinsharma16092002](#) |  [AshwinScripter](#)

EDUCATION

• Bachelors of Technology- Computer Science & Engineering

Bennett University

◦ GPA: 8.24/10

09/2021 - 05/2025

Greater Noida, India

• Intermediate

Milton Public School

◦ Percentage: 91%

04/2020 - 03/2021

Agra, India

SKILLS

- **Programming Languages:** Java | C++ | Python | MySQL | HTML5 | CSS | JavaScript
- **Technical Skills:** Git | Linux | Shell Scripting | Operating System | Data Structures and Algorithms | AI | Machine- Learning | Deep Learning | React.js | Tailwind.css | Computer Networks

PROJECTS

• MindSync, AI Voice Assistant

Tools: [Python, NLP, Transfer Learning]

- Incorporated voice assistant features resulted in a 30% increase in user engagement and 25% higher task efficiency.
- Enhanced accuracy by 80% through advanced NLP algorithms.

• APP APK Analyzer

Tools: [Python, Androguard Tool, JADX Tool]

- Led the development of the App's APK Analyzer, a Python-based tool that streamlined APK analysis processes, resulting in a 50% reduction in analysis time.
- Achieved 60% accuracy in static analysis using Androguard.

• Diabetic Retinopathy Detection

Tools: [Python, VGG19, DenseNet201, ResNet50, Kaggle]

- Improved model accuracy by 25% using upsampling, downsampling, and a balanced weighted categorical loss function to address data imbalance.
- Achieved different accuracies for different deep learning models such as: - DenseNet201: 79.29% | ResNET50: 70.30% | VGG19: 69.48%

• SteganoGraphy

Tools: [Python]

- Developed steganography methods with a 95% success rate, enabling secure data embedding in 4 different media formats.
- Crafted strategies for image, video, audio, and text steganography, showcasing versatility in data concealment.

EXPERIENCE

• HCLTech

Graduate Engineer Trainee

08/2025 - Present

Noida, India

- Undergoing structured training in AI, ITIL practices, and Information Security, gaining knowledge of industry-standard methodologies and tools.
- Implemented [technology / method], enhancing [specific aspect] by Building a strong technical foundation through hands-on exposure to emerging technologies and enterprise IT practices.

PUBLICATION AND RESEARCH

1. **Enhancing Liver Cirrhosis Diagnosis: A Comparative Analysis of "XGBoost, SVM, and Random Forest" Classifiers for Optimal Predictive Analysis**

- Accepted by Scopus on April 12th, 2024, the paper was presented at the 4th International Conference on Computational Methods in Science and Technology on May 2nd - 3rd, 2024.
- Technologies: Python, Kaggle, Machine Learning Algorithms (RandomForest, XGBoost, SVM).
